# Feedback - Key Findings

- Support competency development and aligning with all areas covered in BABOK Guide for endorsement
- Suggest pricing model be low enough to enable smaller training providers to join program
- Agree with levelled approach rather than pay per class model
- Endorsement process needs to be easier, more cost competitive - not more rigorous
- Endorsed courses need to be further differentiated from non endorsed courses in specific areas
- Regular ongoing communication and engagement with EEPs by IIBA crucial
- Like online rating tool to ensure quality courses as long as validation of reviewers in place
- Prefer 'endorsed' so would recommend more rigour if needed to keep this label.
- Need to increase IIBA awareness (i.e. brand & programs/products) and should leverage EEPs to do this & provide marketing collateral to support this
- Like giving back incentives/rewards

# New EEP Program

# SWOT Matrix

## Strengths

- Active EEPs
- Professional development aligned to BABOK Guide
- Buy in to competency development approach
- Serves global community as a whole
- BABOK Guide v3 – globally recognized industry practice standard
- Global corporate membership program
- Chapters in different cities/countries

## Weaknesses

- Low number of providers participating
- Low number of products/services endorsed
- Products limited to exam prep and intro to BA courses
- Not extending the benefit of IIBA Partnerships to the community or EEPs
- Not leveraging EEPs for corporate membership program
- Slow progress and responsiveness (i.e. competency framework and other products (e.g. Agile extension) are not updated with BABOK 3
- Low agility – not acting quickly to meet the need of the profession (e.g. Agile BA certification)

# SWOT Matrix

## Opportunities

- Revision of program to increase EEP communication/engagement
- Competency based approach to professional development
- New certification framework
- Micro credentialing
- Employment growth is anticipated to be faster than average in BA space
- Corporates have tremendous untapped potential for maturing their BA capabilities aligned with BABOK
- Leverage EEPs for corporate engagement (corp membership program, memberships, certifications, BABOK purchase, etc.)
- Leverage EEPs for IIBA partnerships to broaden the reach
- Leverage EEPs with Chapters to increase reach
- Active EEP support to the Chapters

## Threats

- Competitor programs
- Unclear value proposition
- Disengaged CBAPs
