

Frequently Asked Questions: IIBA Transition to PSI Exams

What are the upcoming exam changes from IIBA?

Starting January 2020 all IIBA[®] certification exams will be delivered through PSI.

Since 2016, PSI has delivered the ECBA[™], and more recently the IIBA[®]-AAC and IIBA[®]-CBDA exams. With this consolidation to one vendor, PSI will now also offer CCBA[®] and CBAP[®] (English and Japanese) exams currently delivered at Prometric test centres. In addition, the CCBA[®] and CBAP[®] (English and Japanese) exams will now also be offered at PSI test centres.

What are the benefits of the new exam provider?

- You will be able to schedule your certification exam using Single Sign On (SSO) from the IIBA portal after paying your exam fee.
- For the first time and by popular demand, you can complete the CBAP[®] and CCBA[®] exams remotely from the convenience of your own computer.
- ECBA[™], IIBA[®]-AAC, and IIBA[®]-CBDA exams will continue to be delivered remotely from the convenience of your own computer.
- Only 24-hours' notice is required to schedule remote online proctoring.
- No travel required to a test centre.
- No more waiting for a test centre to open in your area OR having to deal with a test centre suddenly closing in your area.

When are the exam blackout dates?

Blackout period for exams will be in effect from **January 1-8, 2020** to support this transition. During this time candidates will not be able to schedule or take an IIBA exam during the blackout dates period.

What does this change mean?

Schedule and write your exam with Prometric or PSI (following our current process) up to December 31, 2019 (11:59 PM EST). From January 1-8, 2020 no exams will be scheduled or written. Starting January 8, 2020 all IIBA exams will be delivered exclusively via PSI and you

will be able to schedule and take your exam. Instructions will be communicated as soon as the blackout period has ended.

How will this affect you?

If you have already scheduled your CCBA® or CBAP® exam with Prometric between now and the end of day December 31, 2019, the change of service providers will not affect your examination date.

What if I planned on scheduling and taking my CBAP® exam in January 2020 with Prometric?

You will not be able to schedule (or take) your CBAP® exam (or CCBA® exam) with Prometric after December 31, 2019. If you have not scheduled or taken your exam, we will ensure your eligibility is transferred to PSI for you to schedule and take it as early as January 15, 2020.

Additional questions?

If you have any additional questions, please email certification@iiba.org.
